United States | Work enquiries welcome

Professional summary

Construction professional with practical experience across civil, industrial, commercial, residential, and structural steel environments. Adrian brings preparation, precision, respect for safety, and a strong work ethic shaped by an earlier career as a chef and his move from Norway to the United States.

Core experience

HEAVY CIVIL & INFRASTRUCTURE

- Oil and gas and offshore operations
- Heavy civil and infrastructure works
- Roads, bridges, marine, mining, and utility projects

BUILDINGS & FINISHING

- Industrial, commercial, residential, and high rise projects
- Renovation, remodeling, interior fit out, and finishing
- Landscaping, external works, maintenance, and repairs

STEEL & SITE DELIVERY

- Structural steel and fabrication environments
- Site supervision and project coordination
- Planning through completion across complex sites

Photographic work record

Structural steel and fabrication	Workshop photographs document plate layout, prepared openings, fit up, clamping, weld finishes, and beam, channel, and girder assemblies.
Civil, concrete, and reinforcement	Field photographs show deck and foundation reinforcement, rebar cages, formwork, concrete placement, detailing, and cutting environments.
Site operations and coordination	Site photographs cover surveying, structural installation, heavy lifting, building envelope work, and protected work areas.

Career path and verification

EARLIER CAREER	Chef with a foundation in preparation, timing, precision, and consistent standards.
CONSTRUCTION CAREER	Moved from Norway to the United States to pursue practical construction work across demanding environments.
CREDENTIALS & REFERENCES	Current certifications, project roles, dates, references, and required documents are provided directly by Adrian.
